Launching: The Conversations Series

Our brand-new set of resources, *The Conversations Series*, is now live on Church of Scotland Learning!

The Conversations Series creates opportunities for accessible and encouraging faith conversations in group settings. The topics explored are designed to be conversation starters; open to everyone regardless of age or experience within a congregational context. You'll find a growing set of topics available, including Discipleship, Stewardship, Sharing Faith, Purpose, Prayer and Worship with more coming soon! You can explore this series right now on Church of Scotland Learning. We would love to hear what conversations you start in your context, and what conversations you'd like to have!
